SKILLS

- Languages:** C ,python ,javascript , html, css ,tailwind css
- Tools/Platforms:** Sql, Generative ai
- Soft Skills:** Problem-Solving, Team Player, Adaptability

PROJECTS

Smart RO – IoT-Based Water Purification & Monitoring System

May'26-Jun' 26

- Developed an IoT-based smart RO system to monitor water quality in real time using sensors for parameters such as **pH and turbidity**, enabling continuous assessment of purification conditions.
- Integrated and interfaced **water-quality sensors with the control system**, collecting real-time sensor data to support automated monitoring and improve the efficiency of the purification process.
- Implemented **automated control mechanisms** based on sensor readings, helping reduce manual intervention and providing a practical approach to intelligent water purification.
- Designed the system with a focus on **real-time monitoring, efficient purification, and user-friendly operation**, demonstrating the practical application of IoT in smart water-management solutions.
- Tech Stack:** *IoT, Sensors, Embedded Systems, pH Sensor, Turbidity Sensor, C/C++, Arduino/ESP32*

CERTIFICATES

Python certifications by Infosys springboard	Jun'26
Sql certificates by Oracle	Jun'26
Web Dev certificates by Scalar	Jan'26-July'26

EDUCATION:

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 8.43	Pharwara ,Punjab Aug'25- Present
Acme Public School Intermediate ; Percentage:64%	Muzaffarpur,Bihar Mar'24-2025
DAV Public School Matriculation; Percentage: 92%	Muzaffarpur,Bihar Mar'23-2024
